A message from Jemma,
Home Organiser & Founder
The Organising Academy

*Happy
New Year!*

Welcome to the New Year edition of *Get Organised*, where we strive to ignite a sense of **purpose** and inspire you to embrace each day with a **harmonious balance**.

As we embark on another 365-day adventure, let's infuse each moment with **intention** and a generous dose of organisation!

Remember, everything can be achieved through small, gradual steps. **So take it one day at a time and be sure to find a Home Organiser to support you.**

Wishing you a safe, harmonious, and highly productive year ahead.

Jemma x

CREATING ORDER

By Mel Barry

House of Calm

“When your home is in order you will feel **happier, lighter,** and will **reduce the overwhelm** in your life.”

Creating Order: The 4 Steps To Calm

Step 1: Declutter. Play some music and make it fun! Venture through every room in your home and remove items that no longer serve a purpose.

Step 2: Sort your belongings by category. By grouping similar items together you will create a streamlined and harmonious living space. And the best part – you will be able to find things *easily* and pack away *quickly*!

Step 3: Organise belongings using storage solutions such as clear tubs, turntables, and drawer inserts to create a functional and sustainable system.

Step 4: Revitalise your home with styling. Introduce a new colour palette, update cushions, or add a floor rug for instant calm. Complete the look with books, candles, and trinkets.

Keeping It *calm*

BEFORE

AFTER

Declutter Strategically

Regularly assess and declutter your living spaces, keeping only items that bring you joy or serve a purpose. Create a '*decluttering system*' such as having a basket specifically for items to be donated.

Establish Daily Routines

Create a routine for tidying, organising, and maintaining order, ensuring that tasks are manageable and consistent.

Invest In Your Home

Invest in good quality storage solutions and outsource where possible. Find your local Organiser to help you implement long-term solutions for creating calm and order in your home.

PANTRY EDIT

BEFORE

AFTER

“Pantries come in all shapes and sizes. Our role is to make the most of the space available and provide solutions our client hasn’t thought of so their pantry is functional. Making it look amazing at the end is a bonus!”

DROP ZONE

BEFORE

AFTER

"Creating a 'drop zone' in your home will encourage your family to put their things away instead of dragging them throughout the home. Remember to only store *essential items* here."

Sarah, Zen Spaces by Sarah

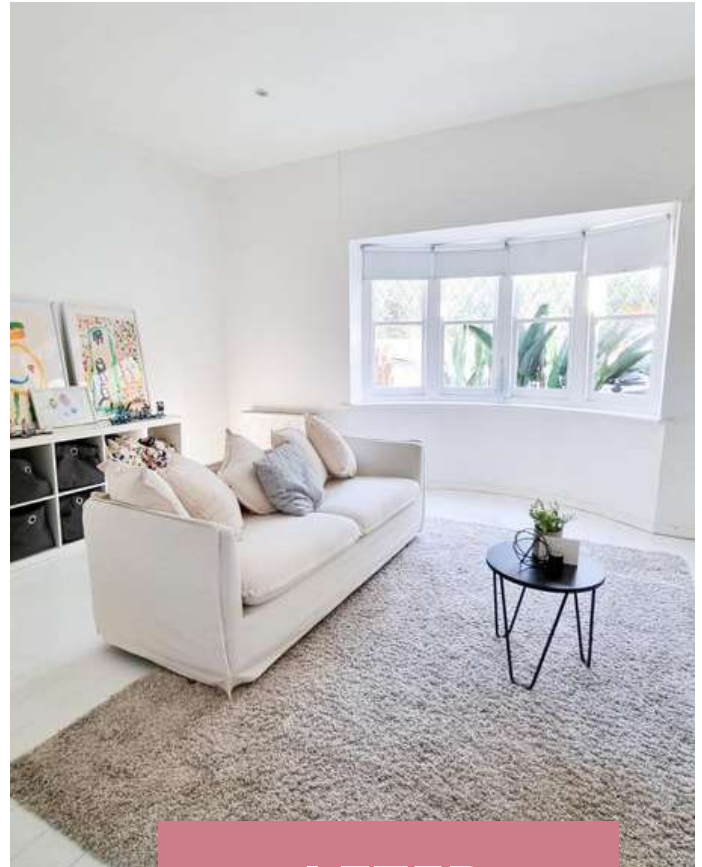

Transformation

LIVING ROOM

BEFORE

AFTER

This WFH office was transformed into a kids living room for playing, watching movies & displaying the kids artwork. No need to spend a fortune on new furniture, we used existing furniture & re-imagined the space creating a light, bright fun space for this large family.

HOW TO FENG SHUI *your life*

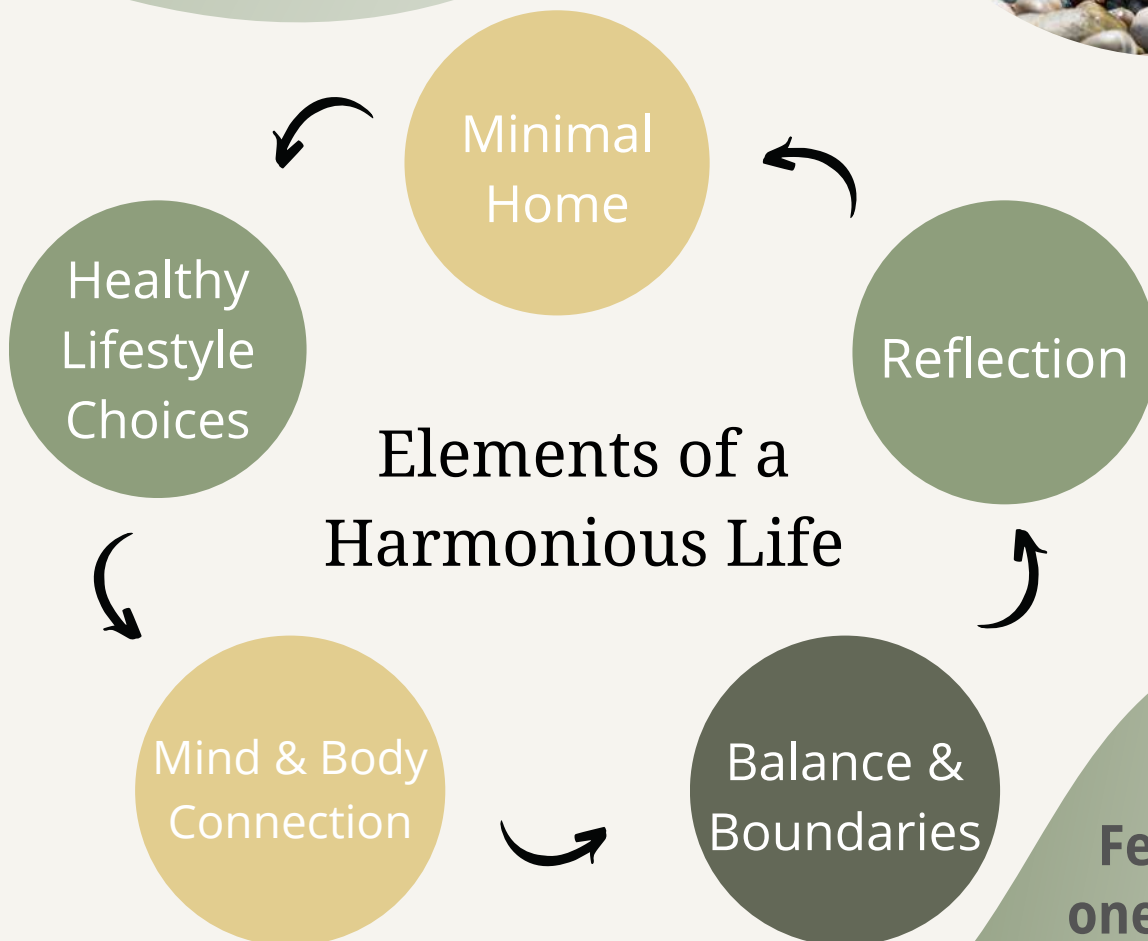

In a world filled with constant hustle and bustle, finding **balance** and **harmony** is essential for overall well-being.

What is Feng Shui?

Feng Shui is the art of arranging your environment to **enhance the flow of energy**, or "chi," promoting a sense of **harmony, prosperity, and health.**

Feng Shui is not a one-time fix, it is an ongoing practice.

How To FENG SHUI YOUR LIFE

Live Simply

A home adorned with simplicity becomes a sanctuary, promoting mental clarity and a sense of calm. Declutter frequently and only bring items into your home that are fulfilling and serve a purpose.

Be Mindful

Be present in the moment, practice gratitude, and surround yourself with positive influences. Feng Shui is not just about the physical environment but also about cultivating a positive and balanced lifestyle.

Connect

Nurture your emotional wellbeing by embracing shared moments that celebrate the beauty of togetherness. Foster deeper connections with yourself, nature, and those around you.

FENG SHUI YOUR HOME

Interior Styling

*Feng Shui is based on the five elements
- wood, fire, earth, metal, and water.*

Incorporate **wooden furniture**
for growth & vitality

Plants represent life,
growth and energy.

Add **metal accents** for clarity,
precisions and strength.

Fire symbolises
passion, energy and
transformation.

Invite **water elements**
for flow, abundance
and tranquility.

*Our homes reflect our
lives like mirrors.*

*Ensure a balance of
these elements in your
living spaces to invite
positive energy into
your life.*
