A MESSAGE FROM THE FOUNDER

Happy World Organising Day!

As **World Organising Day** on May 20th approaches, let's embrace the joy that comes with being organised and creating simplicity in our homes.

Your home should be a sanctuary, a place to unwind from the chaos of the outside world – does it feel that way for you?

For me personally, an organised home with efficient systems is vital to my health, happiness, and productivity.

In this inaugural edition of our home organisation magazine, we proudly showcase our team of professional expert Organisers hoping to ignite inspiration and motivation within you.

Wishing all our readers a simplified life filled with less mess and **more joy!**

Jemma x

**How to create a beautifully organised
and functional pantry.**

MEET DEANNA

CEO & founder of Pretty Little Designs

Deanna began her organising journey in 2017 making container labels, and has since made strides of success with her high-quality range of home products at **Pretty Little Designs (PLD)** available online and in her stunning new showroom located in Mandurah, WA.

BEHIND THE SCENES AT PLD

Deanna's level of dedication to helping customers get organised is extraordinary. Through bespoke organising consultations, she can help you find the products and solutions that will work best for your space.

As there is no one-size-fits-all products for home organisation, Deanna is constantly looking for ways to expand her quality range of organising products and services.

**"OUR GOAL IS TO HELP YOU
CREATE VISUALLY STUNNING,
FUNCTIONAL, AND ORGANISED
SYSTEMS"**

WHAT ***NOT*** TO DO WHEN ORGANISING YOUR HOME.

"One of the biggest mistakes that people make when trying to get organised is buying too many organising products without a clear plan for how they will be used. This results in unnecessary clutter and confusion!"

Deanna recommends you take the time to declutter the space and make a plan, **before** you invest in storage products.

A **lazy susan** is a versatile storage solution to keep items organised and easily accessible.

Stackable Bamboo Containers help take advantage of vertical space in your pantry.

PUSH TOP CONTAINERS

Designed by Deanna herself, these airtight containers with a push-top lid are quality, stackable and made to last.

Remember to label! There are a large variety of labels at PLD - every possible size, font, colour and style you can think of!

These stylish oil & vinegar **glass bottles** keep contents fresh.

THE ART OF DECANTING

with Shelby Moland, Simplify by Shelby, Central Coast

So, what is decanting?

This is when you transfer food from their original packaging into airtight containers.

The benefits:

- ✓ Visibility of ingredients
- ✓ Quick access to items
- ✓ Food stays fresher for longer
- ✓ Maximises the storage space
- ✓ You will save money!

But the biggest benefit of them all is saying goodbye to those dreaded pantry moths!

"An organised pantry saves you time, money, and makes it so much easier to meal prep!"

But first, declutter!

Before you rush off to buy a whole lot of storage containers, you must first **declutter**.

Go through the space (also known as 'editing') to discard items you don't need and plan the layout.

Take **measurements** to be sure the storage products will fit.

DECANTING GUIDE

with Tamara Speedie, SORT my Space, Gold Coast

How to decant in 5 easy steps!

01 Take Everything Out

Remove everything from your pantry and group items by category. This may seem quite overwhelming, but it's necessary to get a clear picture of what you have - and what you want to decant.

02 Declutter

Sort through your pantry items and discard anything that is expired or items you no longer use.

03 Go Shopping!

Only purchase the quantity of containers that you need (opt for glass jars or clear plastic) and choose sizes that will fit your space.

04 Get Decanting

Transfer your food into containers, taking a note of the contents for future labelling. You may want to use a funnel to make this process easier.

05 Organise & Label

Group similar items together and arrange them in a way that will be functional for you.

The final step is labelling!

You can use a Dymo Labeller (\$40 @Kmart) or order custom labels.

"Decanting saves time, preserves freshness, and creates a more organised space."

Have a small pantry?

Fear not! Even the tightest of spaces can still be functional and organised. Instead of using containers - try tubs!

**How to transform your home from chaos
to calm, one room at a time.**

Bringing *zen* into your space

with Sarah Potts at Zen Spaces by Sarah, Gold Coast

Zen is a Japanese concept that is often associated with meditation, mindfulness, and simplicity.

In today's fast-paced and chaotic world, it's more important than ever to create a sense of peace and tranquility in your home.

"Bringing Zen into your home can help you to achieve a greater sense of calm and balance in your life."

The first step to a zen home and living with intention is to declutter.

Decluttering will not only create more physical space but also free up mental space.

By freeing yourself from physical items, you can then focus on incorporating natural elements, minimalism and practice mindfulness.

Natural Elements

One of the key principles of Zen is the connection between humanity and nature, which is strengthened by incorporating natural elements into your space.

Open up those blinds and let the sunlight shine through! Add **plants**, **timber elements**, or a **small water feature** to help create a sense of harmony and tranquillity.

Minimalism

Zen is all about **simplicity** and **harmony**, and this should be reflected in your colour choices.

Use soft, natural colours such as beige, grey, and white to create a calming and peaceful environment.

Practice Mindfulness

Incorporate mindfulness into your daily routine. Take a few moments each day to focus on your breathing, and bring your attention to the present moment.

Less mess, more moments.

with Deanna Zacharia, The Sorted Home, Adelaide

If you're looking for a way to feel **less stressed** and **more energised**, it might be time to get decluttering!

When you only have what you **NEED** and **LOVE**, you'll create a streamlined and simplified home.

Living with less will increase your **productivity** and create a greater sense of calm in your life.

DECLUTTERING: Getting Started

SET A GOAL

Determine why you are doing this and what you want to achieve. This will keep you motivated!

CATEGORISE

Sort items by category to help you make decisions more efficiently and prevent getting overwhelmed during the process.

START SMALL

Begin with a small area, such as a single drawer or cupboard, and work your way up to larger spaces.

LET'S EMBRACE THE 'LESS MESS & MORE MOMENTS' MINDSET IN OUR LIVES.

FASHIONABLY Organised!

with Leena Terry, Bliss Organisation, Sydney

Everyone deserves to look and feel like a million bucks, right!? It all starts with waking up to an organised wardrobe!

This may seem like a daunting task, but with a little bit of effort, you can turn your hot-mess of a wardrobe into an absolute haven!

Organised in 3 easy steps...

- **SORT** all your garments, shoes, belts, bags into piles by category.
- **DONATE** items that don't spark joy, you don't wear, or don't fit you.
- **CONTAIN** items into a variety of baskets, tubs and clear boxes and return it into the space - and remember to label.

HOT TIP
Leave a space for unused coat hangers!

"I strongly believe that your home should be a place of **calm** and **harmony**. I pride myself on creating systems that not only look stylish but help you take control and stop the chaos!"

We only wear 20% of our clothes, 80% of the time

Wardrobe organising must-haves!

- ★ Matching coat hangers
- ★ Turntables for perfumes
- ★ Clear stackable shoe boxes
- ★ Storage baskets & cubes
- ★ Clear drawer dividers
- ★ Clip labels

LOVE YOUR LAUNDRY

with Leandra Burton from SORTED, Hobart

As a busy working Mum, Leandra understands the struggle and stress that comes with a pile of dirty laundry. It's like a never-ending battle!

There is nothing more draining than a mountain of clean washing sitting on your dining room table, waiting to be folded.

By setting up a laundry routine, you will make friends with your washing machine and get your laundry under control. You've got this!

"The hack is to get an entire laundry cycle done in one day! From washing and drying, to folding and putting away."

Creating a laundry routine:

Set a schedule of when to wash - we recommend one load a day!

Be consistent with the **time** you put on your load of washing. Either last thing at night or first thing in the morning.

Make folding fun - pair it with an activity such as watching TV or listening to a podcast.

If possible, delegate putting the folded clothes away to someone in your household.

Give your laundry a **glow-up** with storage containers and baskets to make it a functional (and pretty) zone to work in!

Heavenly

home organising

The sister-in-law duo from Sydney reveal their organisational tips for maintaining a tidy and organised home.

#1 DECLUTTER OFTEN

Decluttering is a continuous process. As things flow *into* your home, it's important to make sure things flow **out of it!** If any spaces are overflowing - tackle them first.

#2 PUT IT AWAY

We live by the mantra '**don't put it down, put it away**'. When we put items down, we immediately add it to our future to-do list. By taking an extra minute to place it in its designated home, we close the loop & it's done-completed-finito!

Sanna

Niina

#3 THE 10-MINUTE TIDY UP

At the end of each day, set your timer for a 10 minute tidy up. Race around your home & get as much done in that time as you can. You'll feel so much better waking up to a tidy home the next day!

#4 CREATING HOME SYSTEMS

Setting up efficient and organised home systems is a game-changer. By creating designated spaces for your belongings, you'll prevent clutter and make it simple to find things and pack away quickly.

#5 SET A LIMIT

Setting a limit on the number of items you have can be an effective way to keep your home simple. You'll be forced to make more intentional and thoughtful decisions about what you truly need and value.

Keeping it calm

How to create a cosy and calm home

with Mel from House of Calm, Melbourne

Whether you're renovating, building or styling a space in your home or office, the first step is to create your **vision**.

A '**vision or mood board**' is a collage of pictures, colours and vibe that capture the look and feel for the space, and will help you understand the layout.

LIVING ROOM

We spend a lot of time in our living rooms, so why not make it a beautiful, cosy space, that encourages and invites you to relax!

Using a **neutral colour** as a base, you can play with colour and textures by adding rugs, cushions, throws and decorative objects such as coffee table books, vases and candles.

FIND YOUR HERO PIECE

Choose your focal point of the room and invest in a 'hero' piece such as a bold coloured sofa, a unique coffee table or a stunning piece of artwork.

And for the finishing touch, plants add visual interest and create a lush, organic feel to the space.

WARDROBE

Your wardrobe should reflect your personal style and be visually appealing while remaining functional.

Having too many items in your wardrobe can be overwhelming, so shop with intention and only buy what you need.

Consider a capsule wardrobe and invest in items that are easily interchangeable and designed to maximise the number of outfits that you can create.

To add a touch of luxury, incorporate velvet hangers and felt drawer liners. Additionally, sort your clothes by colour or style to create a visually appealing and inspiring space.

"Take the time to curate a space that makes you feel calm, content and inspired"

MASTER BEDROOM

Creating a beautiful clutter-free bedroom that you will love spending time in, will promote relaxation and calm.

By selecting calming colours, comfortable fabrics, and adding natural elements, you can create a warm and inviting space, encouraging a restful nights sleep.

Want to improve sleep? Incorporate soft lighting to set the mood and create a warm and inviting space.

When style meets function

with Carmen Strong, Little Strong Home, Central Coast

A 5-Step Guide to Styling Your Home

"Your home is a reflection of your **personality and style**. It is also a space that needs to be **functional, efficient, and comfortable**."

STEP 1: DEFINE YOUR STYLE

Are you drawn to a modern, minimalist look, or do you prefer a more traditional aesthetic? Decide on colours, patterns, and textures you want in your home.

STEP 2: MAXIMISE SPACE

This may involve decluttering, rearranging furniture, or invest in storage solutions.

STEP 3: MIX & MATCH

Mix and match different styles and textures to add personality into the space. Blend modern and traditional elements, or pair bold prints with subtle textures.

STEP 4: LIGHT IT UP

Lighting can make a huge impact in the overall look and feel of your space. Have a variety of lighting options, including overhead, task, and ambient lighting to create different moods.

STEP 5: EMBRACE COLOUR

Colour can influence your mood and energise a space. Don't be afraid to mix different colours and shades, but make sure they complement each other and feels easy on the eye.

SUSTAINABLE STYLING

Eco-friendly ideas for your home.

with Bree Judson, Sage Organisation & Styling, Sydney

As we become more aware of the impact that our lifestyles have on the environment, many people are looking for ways to reduce their carbon footprint in their homes.

So, what is sustainable styling?

It's about incorporating eco-friendly design ideas into your living space.

Here are some of my top tips for creating an eco-friendly home:

- ✓ Focus on natural materials such as wood or bamboo
- ✓ Use organic cotton & linen for bedding & upholstery
- ✓ Add plants to improve air quality (and create calm)
- ✓ Repurpose & upcycle furniture

By incorporating these eco-friendly design ideas, you can create a home that's beautiful, functional, and environmentally conscious.

DECLUTTER LIKE A DIVA

with Kristina Duke, The Decluttering Diva, Sydney

Behind the scenes of Sydney's team of decluttering experts.

Kristina & her team help people who are struggling with hoarding disorder, and although they are covered in dirt and sweat most days, they absolutely love it!

HELPING SOMEONE WHO HOARDS

Hoarding is not just a matter of being disorganised or lazy, it is a mental health condition that involves difficulty parting with possessions.

Despite the seriousness of the situation, Kristina says she always maintains a positive outlook, and is sure to have as much fun as possible with the client. Progress is progress!

"THE STRANGEST THING WE'VE EVER DECLUTTERED WAS A SHOTGUN! DON'T WORRY - IT WASN'T LOADED"

A DAY IN THE LIFE OF THIS DECLUTTERING DIVA.

A session starts by meeting with the client and getting to know them and their circumstances - so they can provide a customised service based on the needs and support required.

Most days a skip bin is necessary, and the team work for many days (sometimes weeks) decluttering a property. They find very old newspapers, scraps of random rubbish and many unused kitchen gadgets.

In addition to decluttering, Kristina is also a Mentor for Organisers, educating on NDIS, ADHD and helping people with hoarding behaviours.

GETTING IT SORTED

with Adrienne Bradshaw, Get It Sorted, Mackay

CLEARING THE CLUTTER

For most people, having extra "stuff" stored in their home does not pose a problem.

But for over 1.2 million Australians, or 6% of the population, hoarding behaviour is a serious issue.

The extreme clutter causes shame and embarrassment, with some clients not being able to invite guests over, or even access their kitchen to cook a meal.

We understand that hoarding disorder can be a sensitive and complex issue, and approach our clients with empathy, respect, and support.

The most satisfying transformations for us are garages & sheds.

When organising these spaces you may consider **outsourcing rubbish removal**, investing in **storage tubs** (from Bunnings) and remember to label!

Getting help for hoarding disorder

If you or someone you know is struggling with hoarding disorder, it is essential to seek help.

Talk to your healthcare provider or mental health professional to get a proper diagnosis and treatment plan. You can also talk to a Professional Organiser who can provide you with initial support.

- 2** Set a timer to avoid distractions and stay focused on the task.
- 3** Focus on what you actually **use** and **love** to help make decisions.
- 4** Have different coloured bags for donation, rubbish and recycling.
- 5** Use the "one in, one out" rule. For every item you bring into your home, try to get rid of one item.

Motherhood

We hear from Sandy, a Home Organiser who assists mothers with how to prepare for the arrival of their new baby.

Nesting when expecting

with Sandy Lendvaj, The Nesting Mama, Gold Coast

Congratulations - this is the most exciting time for you!

Pregnancy is a beautiful experience that brings joy and excitement to a woman's life.

However, it also comes with its fair share of challenges, and nesting can be one of them.

It can be an overwhelming feeling for some expectant mothers, and if not managed well, it can lead to stress and anxiety.

Let's explore how to make the most of nesting when pregnant, while minimising stress and enjoying the process.

"Nesting is preparing every corner of your house to meet a tiny stranger, who quite frankly does not care whether your pantry is organised, your cutlery is polished or your underwear drawer is tidy."

Nesting provides expectant mothers with a sense of control, comfort, and preparedness for the arrival of their newborn, creating a safe and nurturing environment for both the mother and baby.

Sandy, Professional Organiser at 'The Nesting Mama' in QLD.

WHERE TO START

Start by making a list of things you want to accomplish before your baby arrives. This list should include everything from decluttering and cleaning, to setting up the nursery and purchasing baby items. Prioritise the items on your list and break them down into smaller tasks that you can accomplish over time. Don't put too much pressure on yourself to get everything done at once. Remember, you have nine months to prepare.

DECORATING THE NURSERY

When it comes to decorating the nursery, try not to go overboard. Focus on creating a peaceful and comfortable environment for your baby. Choose neutral colours and invest in a comfortable rocking chair or glider for those late-night feedings.

TAKE BREAKS

Don't forget to take breaks and rest when you need to. Nesting can be exhausting, and it's important to take care of yourself and your baby. Take a nap, go for a walk, or do something that makes you happy. Remember, the most important thing is to enjoy the process and prepare for the arrival of your little one.

ENJOY THE PROCESS!

Nesting can be an exciting and fulfilling experience. By taking a proactive approach, enlisting the help of others, and focusing on creating a comfortable environment for your baby, you can make the most of this special time in your life. When you're finished, don't forget to soak up and enjoy the peaceful environment that you have created!
