Wardrobe Revamp

The 5-step guide to organise like a Pro!

Renee, Graceful Guidance

Christy, Sorted In Style

1 Categorise & Group

Start by clearing out your entire wardrobe - yes, every single item!

Organise all garments, shoes and accessories into categories, grouping similar pieces into separate piles.

This approach gives you a clear view of what you own and makes the next step a breeze!

2

Declutter with Purpose

Go through each pile and assess each item honestly.

Ask yourself: Does it fit? Have you worn it in the last year? Do you really LOVE it?

Keep what you love, donate what you don't, and recycle anything too worn to save.

Bree, Sage Organisation

Leena, Bliss Organisation

3

Optimise Your Space

Maximise the storage space available with slim hangers, containers, baskets, and drawer dividers. Use vertical space with hanging organisers and invest in clear boxes for shoes or seasonal items.

4

Make It Functional

Store everyday essentials at eye level, occasional items higher up, and off-season clothing tucked away. Be sure to add labels so you can find what you need with ease.

Lily, *Totally Organised*

Mel, *House of Calm*

5

Add Personal Touches

Style it up with matching hangers, shelf dividers, sensor lights, fancy baskets and a pop of greenery!

“Your wardrobe reflects your style - keep it organised and clutter-free!”
